## Eco Vision Eco Tube Packaging Safety Letter

To Whom it may concern,

Eco Vision Packaging, a division of Organic Essence Inc., is committed to manufacturing packages to the highest safety standards.

The flexible Eco Tube package is made with paper and casein, a protein derived from milk. The paper is suffused and coated with casein. Casein is the product contact surface. Casein is considered to be food-contact safe by health and safety regulators worldwide. Only food-grade casein is used in the manufacture of Eco Tubes, CAS Reg. No. 9000-71-9. The package exterior is printed and coated with casein.

The United States Food and Drug Administration states: "There is no evidence in the available information on casein that demonstrates or suggests reasonable grounds to suspect a hazard when it is used in paper and paperboard products for food packaging at levels that are now current or that might reasonably be expected in the future." This opinion can be found on the US FDA website:

<https://www.fda.gov/food/ingredientspackaginglabeling/gras/scogs/ucm260879.htm>

The rigid Eco Jar package is made with multiple layers of draft and white paper stock, less than 1% Polyvinyl Acetate adhesive, having two layers of food contact surface of non-PFOS containing glassine. Glassine is a high-quality grease resistant paper Generally Recognized As Safe (GRAS) and approved world-wide for food and cosmetics contact. The Eco Jar package is sold undecorated or with custom artwork printed on the exterior.

All Eco Vision packages are compliant with European Parliament and Council Regulation (EC) No. 1907/2006 (aka REACH).

All Eco Vision packages, in compliance with REACH, do not contain any substances of very high concern.

All Eco Vision packages are compliant with EU Directive 94/62 EC on Packaging and Packaging Waste.

All Eco Vision packages are compliant with EC Regulation No. 1935/2004 on materials and articles in contact with food and cosmetic products

All Eco Vision packages are compliant with United States FDA regulations for food and cosmetic product contact,
